Iagon	**2026-11-03 · Both**

TESTS

#	Who	Test	Steps	Expected	Result
1	Shop	**Browse 3D parts**	Purchase Order → Add Purchase Order; pick a 3D-print supplier (for example Iagon Alpha Vendor), then open Browse Parts.	The supplier's 3D-printable parts are listed.	⊙ Pass ○ Fail ○ N/A
2	Shop	**Buy a print license**	Add a part, enter a quantity, and click Submit.	ORSY confirms the order was sent to the Royalty Orchestrator.	⊙ Pass ○ Fail ○ N/A
3	Admin	**Register a vendor**	Create 3D Vendor, then link it in Link 3D Vendor. Use letters only in the name.	The vendor is listed with a UUID and public-key hash.	⊙ Pass ○ Fail ○ N/A
4	Admin	**License a part**	Add the part in 3D Vendor Articles, then create its license with a royalty per piece.	The Licenses page lists it with an on-chain ID.	⊙ Pass ○ Fail ○ N/A
5	Admin	**Upload the print file**	3D File Upload: pick the supplier, add a .3mf or .gcode file, then Upload to Storage.	The file is listed.	⊙ Pass ○ Fail ○ N/A
6	Admin	**Send to print queue**	On the file, add Print File Metadata (product, printer, material), then Create Print Job.	3D Print Job lists the job with a print status.	⊙ Pass ○ Fail ○ N/A
7	Admin	**Track the order**	Iagon partner dashboard: Catalyst → View as vendor for the supplier used in test 2.	The order is listed. Total royalties earned = pieces × royalty per piece.	⊙ Pass ○ Fail ○ N/A
8	Admin	**Royalty distribution**	On the next working day, open the same vendor again.	The order's lock period has ended. Its IOU balance increased by its royalty.	⊙ Pass ○ Fail ○ N/A

Test 8 confirms that the royalty was settled on the Cardano preprod network.

Tester feedback

Response 22

3D Print Royalty Pilot · Würth × Iagon

NOTES ON FAILED OR N/A TESTS

None, all tests passed.

RATING

HOW EASY WAS IT TO COMPLETE THE TESTS? 1 = HARD, 5 = EASY

○ 1 ○ 2 ○ 3 ○ 4 ⊙ 5

WHAT WORKED WELL?

Vendor Alder Print Parts got its UUID and key hash at once. The license for CAP-TOW-EYE, the upload of the 3D print file and the print job worked first time. CAP-TOW-EYE was easy to find under Alder Print Parts, and the order confirmation was clear.

WHAT WAS UNCLEAR OR DID NOT WORK?

Nothing.

WHAT SHOULD WE CHANGE FIRST?

Nothing for now.

ADMIN TESTERS: FEEDBACK ON THE IAGON DASHBOARD

Easy to follow. View as vendor Alder Print Parts showed total royalties earned of 2.00 USD. The next day the lock period had ended, and the IOU balance had increased by 2.00 USD.

Thank you. Your feedback goes into the next development round of the pilot.
